## Class Description

This class will provide participants with the skills they need to make a durable one-of-a-kind handmade mosaic. Through the making of mosaics (in this case, gluing objects onto a wood support and grouting) artists can produce work that is meaningful, formally interesting, and beautiful! Use stained or broken glass---even glass “pebbles” or arrange pieces of china or pottery, shells, jewelry, tiles, metal, or other found objects with interesting shapes!

To make the mosaic more personal or meaningful, artists can collect objects ahead of time & bring them to the workshop (your grandmother’s chipped china? Shells you & your dad collected? Stuff that you pick up & throw in a bowl?) OR you may want to use the broken glass & ceramics in various colors that we have at the Centre for Arts and Artists?! Or both?!

You may also bring your own wide framed mirror or another wood surface (box, small table?) you want to “mosaic” OR use the small framed mirror we can provide.

The glue (Elmer’s or wood glue) that we will use should dry several days before grouting over it so we’ll demonstrate the process and send you home with directions and a bag of grout.

## Additional Class Information

Materials Fee: \$10 is payable to the instructor at the start of the workshop. All materials will be provided. **If participants want to provide everything themselves: objects to glue on, a frame or another wood surface to glue them on, glue, and grout then they wouldn’t have to pay the material fee.**

---

**This workshop is free (not including supply fees) to current Iowa Artists members. For non-members, it’s \$25.00 (not including supply fees). You may join the group if you like. You will be billed at the time of registration. Iowa Artists offers Regional Art Shows in the spring and other events during the year.**
